deputation of messrs. K.B. Gang-
dhara and B.R. Manickam to U.S.A.

In G.O. of 3.9.46 sanction was
accorded to the deputation of messrs. K.B.
Gangadhara, Ex. Engrs, and B.R. Manickam
asst Engrs, to U.S.A. for one year to
study the up-to-date methods of irriga-
tion & and orders regarding the allow-
ances & payable to them during
the period of their deputation have
also been issued in G.O. of 7.12.46.

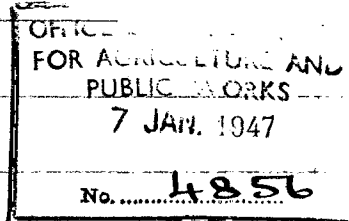

2. The Residency has been requested
to arrange for their passage and
dollar exchange.

3. The American steamer West is
expected to sail in the last week of
January 1947 is bound via Pacific
ocean to San Francisco. The Dewan
would appear to have issued cir-
culation that the two Engrs. Officers
might visit works in Switzerland
and United Kingdom enroute U.S.A.
As there is ^{no} boat sailing via
Atlantic ocean to U.S.A. in the
coming months also, the Officers
are taking the boat from
Bombay to Switzerland and

Serial

thence to United Kingdom. After
finishing the work in these countries
they would sail to U.S.A. and by the
time they land in that continent
they expect the programme for
visit to works in U.S.A. would be made
ready by ~~the U.S.A. authorities~~
~~provisionary the Engineers group~~
~~for approval~~ then. The proposal
to go via Switzerland and United-Kingdom
may be approved.

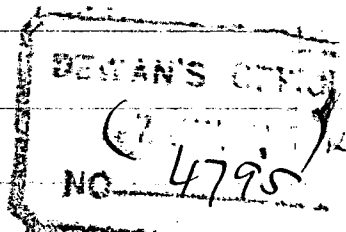

A draft letter addressed to the
Indian Embassy in U.S.A. giving details
of subjects in which the Engineers require
training is put up. A covering letter to
the Secretary to the Resident requesting him
to forward the letter to the U.S.A. is also
put up. The same may kindly be appd.

"Draft"

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

No. *pw 4307*

General and Revenue Secretariat,

13th
Dated Bangalore *13th* January 1947.

FROM

The Secretary to the Government of His Highness the Maharaja of Mysore.

Public Works Department, Bangalore.

To

The Indian Embassy in the United States of America,

2107, Massachusetts Auly, N.W. Washington D.C.,

United States of America.

Subject: Deputation of two senior Engineers Messrs. K.S. Gangadhara and B.R. Manickam to the United States for the study of up-to-date methods of irrigation and construction of high dams.

Sir,

I have the honour to state that the Government of Mysore have taken up some big irrigation projects involving the construction of high masonry dams, long distributing canals, and long water carrying tunnels. Two senior Engineer Officers of the Public Works Department are therefore being deputed to the United States of America for a period of one year to study modern methods of construction of high dams and the utilization of water resources for irrigation. The following may be stated as being the most important subjects of study in which they will interest themselves:

- 1) Construction of masonry and cement concrete dams ranging from 120 to 500 feet in height.
- 2) Modern machinery and mechanical appliances required for construction of dams.
- 3) Excavation of canals for carrying a discharge ranging from 1000 to 4000 cusecs in different soils by means of mechanical appliances.
- 4) Excavation of irrigation tunnels ranging from 1 to 3 miles long with a capacity to discharge 3000 to 4000 cusecs.
- 5) Appliances and devices for the control of water distribution.
- 6) Methods adopted for increasing the duty of water, ~~in irrigation and irrigation~~ and crop planning in order to obtain maximum cultivation by best utilization of available water.
- 7) Malaria control in irrigated tracts.
- 8) Draining water logged areas and reclaiming soils for cultivation.

*YSB
13/1*

With a view to study these various aspects of irrigation it would be necessary for these engineers to visit the several irrigation projects now in operation and under construction in the United States spending a few months at each. It is the desire of Mysore Government that these engineers should study particularly the irrigation projects of the Bureau of Reclamation and the Storage reservoirs of the Tennessee Valley Authority, besides spending a short period of study in the engineering Department of the Federal Power Commission. I am, therefore, directed to request you to be so good as to arrange with the department of State and Interior of the Government of the United States of America for the necessary facilities being afforded to our engineers by the various Federal Agencies and if possible to forward a list of places these Engineers will have to visit. Such a list will help greatly in drawing up a programme in advance so that the time to be spent by them in America may be to the best advantage.

I am to further request you to be so kind as to render them all the necessary assistance during their stay in the United States.

These Engineers intend sailing from Bombay to Switzerland early in February 1947. From there they will go to the United Kingdom and then on to New York. They will spend some time in Switzerland and United Kingdom and they may perhaps reach New York in March 1947. *The information required may be sent to this Government before they sail in Feb. 1947. In case of any delay the same may be furnished to them directly to the address c/o* I have the honour to be,
Sir,
Your most obedient servant.

Secretary to Government,
Public Works Department.
